

CMN Contact Information

The following Hospital Centers across Canada have been identified as participants in the Canadian Malaria Network (CMN). To obtain parenteral artesunate or quinine, please contact the listed pharmacy in your area. The designated physician for each Center can be used as a resource for any questions you may have with regard to the treatment of malaria.

All drugs are made available to the CMN through [Health Canada's Special Access Program](#). Prescribing physicians have obligations to report severe and adverse events immediately to CanadianMalariaNetwork@toh.on.ca and to [Health Canada](#). Physicians must also provide information about the patient and drug usage through the completion of [Form A](#) on day 1 of treatment, and [Form B](#) on day 7.

NOTE:

- **For after-hours assistance:** Please contact the Infectious Disease consultant on-call at the respective center for medical advice, or the on-call pharmacist to obtain drug supply.
- **For all drug-related inquiries (including re-ordering stock of artesunate or quinine):** Please contact the primary drug depot of the Canadian Malaria Network at CanadianMalariaNetwork@toh.on.ca.

Physician & Pharmacy Contacts (by Province)

Major Depot Sites (IN BOLD)- carry stock of 2 or more complete treatment courses of IV Artesunate along with stock of IV Quinine. They also provide malaria treatment guidance through a designated infectious disease physician.

Satellite sites - work with major depot sites to dispense severe malaria medication and stock at least 1 complete treatment course of each drug

TO OBTAIN PARENTERAL THERAPY CONTACT A DISTRIBUTING SITE NEAR YOU
