Start date: vary depending on availability

Application deadline: September 15th

Contact: Celine Dery

(613)738-8400 ext. 82509

Fellowship Director: Dr. Mohan Biyani

What we offer you

The University of Ottawa Home Dialysis Fellowship has been designed to meet the criteria of all its stakeholders. Most important among these is the prospective fellow, the Nephrology Partners of Ottawa (funding source).

The Home Dialysis program at The Ottawa Hospital is one of largest in the country and is comprised of patients on both home peritoneal dialysis and home hemodialysis. The Ottawa Hospital is one of the few centers in the world with an embedded PD catheter program.

You will also have the opportunity to participate in one of our home dialysis research projects and present this at an international meeting.

At the end of your fellowship you should be competent to lead a home dialysis program and receive a Fellowship completion certification from the University of Ottawa.
